SpinDraft

MFRS: BOTTOM FLUTED ROLLER AND KNURLED ROLLERS

**& AUTHORISED TEXPARTS DRAFTING CONVERSION PARTNER
FOR RING FRAMES & SPEED FRAMES**

www.spindraft.com

ABOUT COMPANY

www.spindraft.com

Established in the year 2000 and has been engaged in the business of textile machinery drafting parts manufacturing. We are specialized in manufacturing of bottom fluted rollers and knurled rollers and also an authorised conversion partner for **Saurer Texparts, Germany** for ring frame and speed frame. We also supply drafting spares of **Texparts - Germany**, Weighing arm and its accessories for Ring Frame & Speed Frame.

Spindraft's business includes: Manufacturing, stock and sale distribution and services in domestic and international markets. Spin draft has potentially qualified engineers with vast experience in textile industries over two decades. We timely update with quality products as per customer needs.

RANGE OF PRODUCTS

www.spindraft.com

Complete/Partial - 3 Roller and 4 Roller drafting conversion materials with **Texparts PK1550 drafting system all makes of speed frame**

Complete/Partial drafting conversion materials with **Texparts PK2600/PK2000 series for all makes of Ring Frame**

RANGE OF PRODUCTS

www.spindraft.com

Bottom Fluted Roller and **Knurled Rollers** for all makes of ring frame and speed frame.

Bottom Rollers for Draw Frame, Comber, Ribbon lap and sliver lap machine

RANGE OF PRODUCTS

www.spindraft.com

Roller Stand & Slides for all makes of ring frame & speed frame.

Recessed Type Nose Bar for all makes of ring frame & speed frame.

Arm bars for **Texparts** top arms PK1550/PK1500
PK2025+ & PK2035+/PK2630 SE Series

RANGE OF PRODUCTS

www.spindraft.com

Bottom Apron Tension Device Aluminium fork type/dead roller weight type assembly for all makes of ring frame & speed frame

Top and bottom positive clearer complete unit for all makes of speed frames and its accessories

**Complete / Partial 3 Roller & 4 Roller Drafting conversion material
with **Texparts PK1550 Weighting Arm Series for Speed frames****

3-Roller Drafting System

4-Roller Drafting System

Complete / Partial Drafting conversion material with Texparts PK2600 Weighting Arm Series for Ring Frames

Bottom Fluted Roller and Knurled Roller for Ring Frames & Speed Frames

Precisely made in thread rolling machine with opposite helix flutes for zero axial thrust.

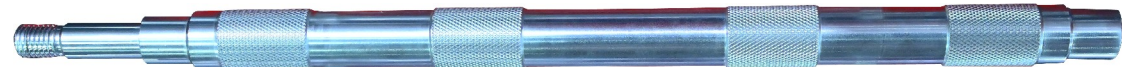

Rollers made out of alloy steel and precision manufactured to determine the quality of bottom rollers.

Bottom Fluted Roller and Knurled Roller for Ring Frames & Speed Frames

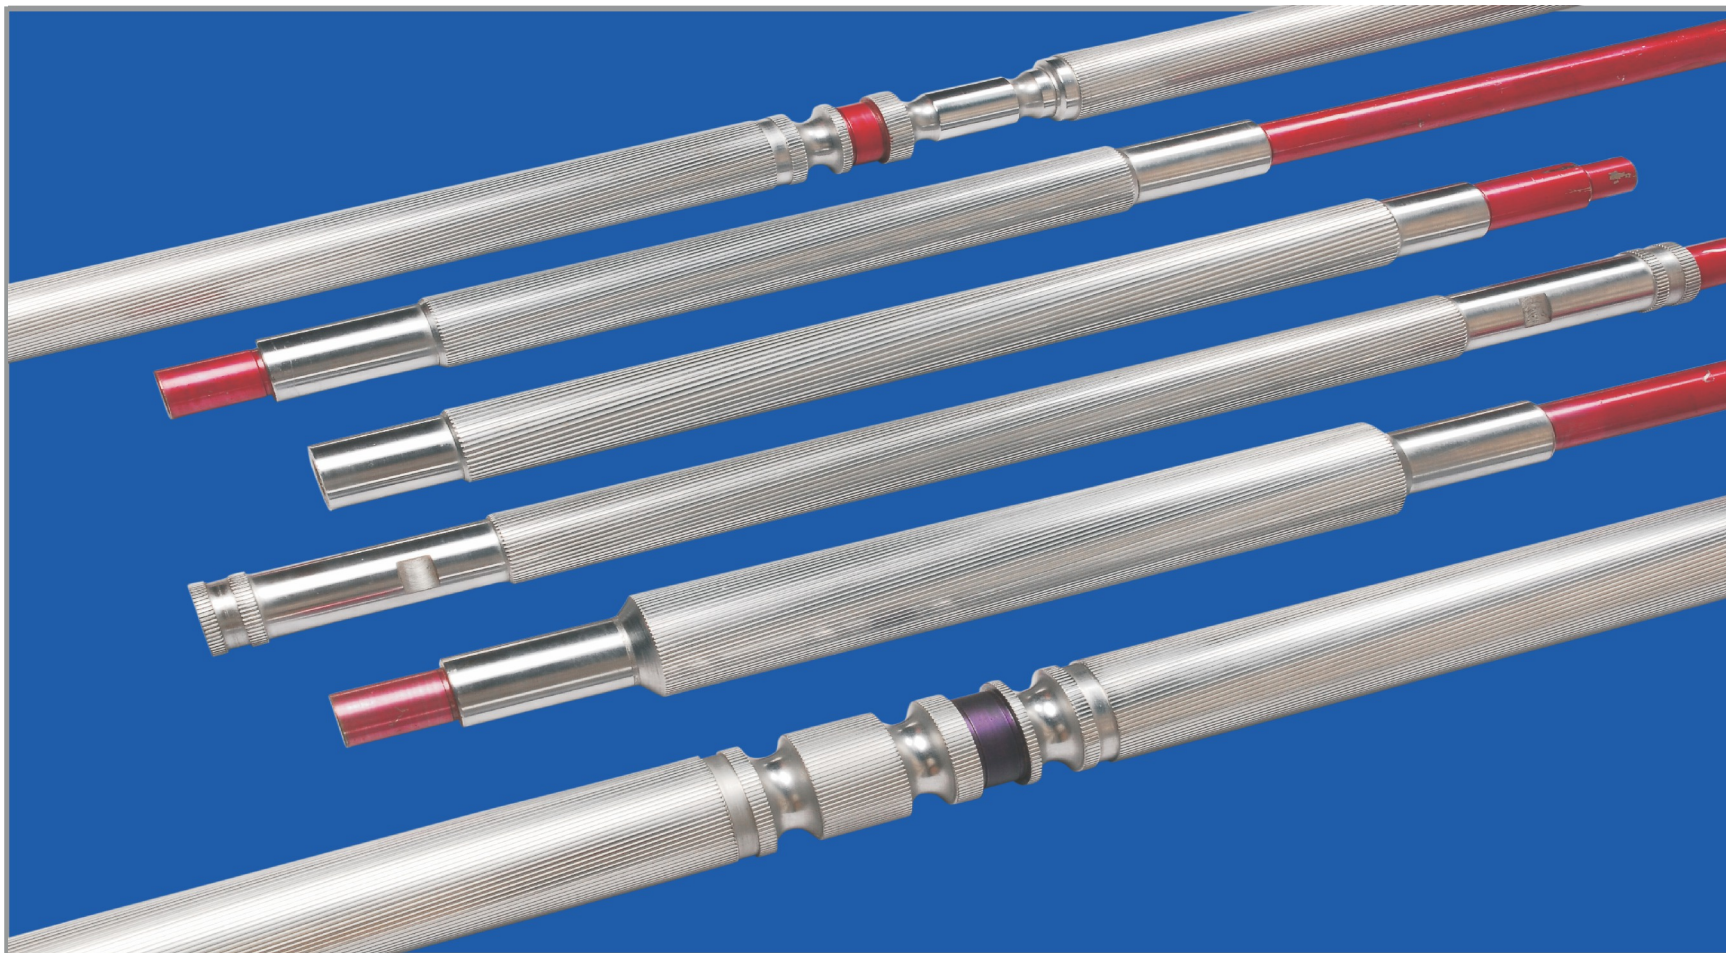

Precise concentricity of bottom rollers and top rollers prevents yarn breakages etc. Rollers can be interchanged.

Rollers completely hardchrome plated which helps to reduce the lapping.

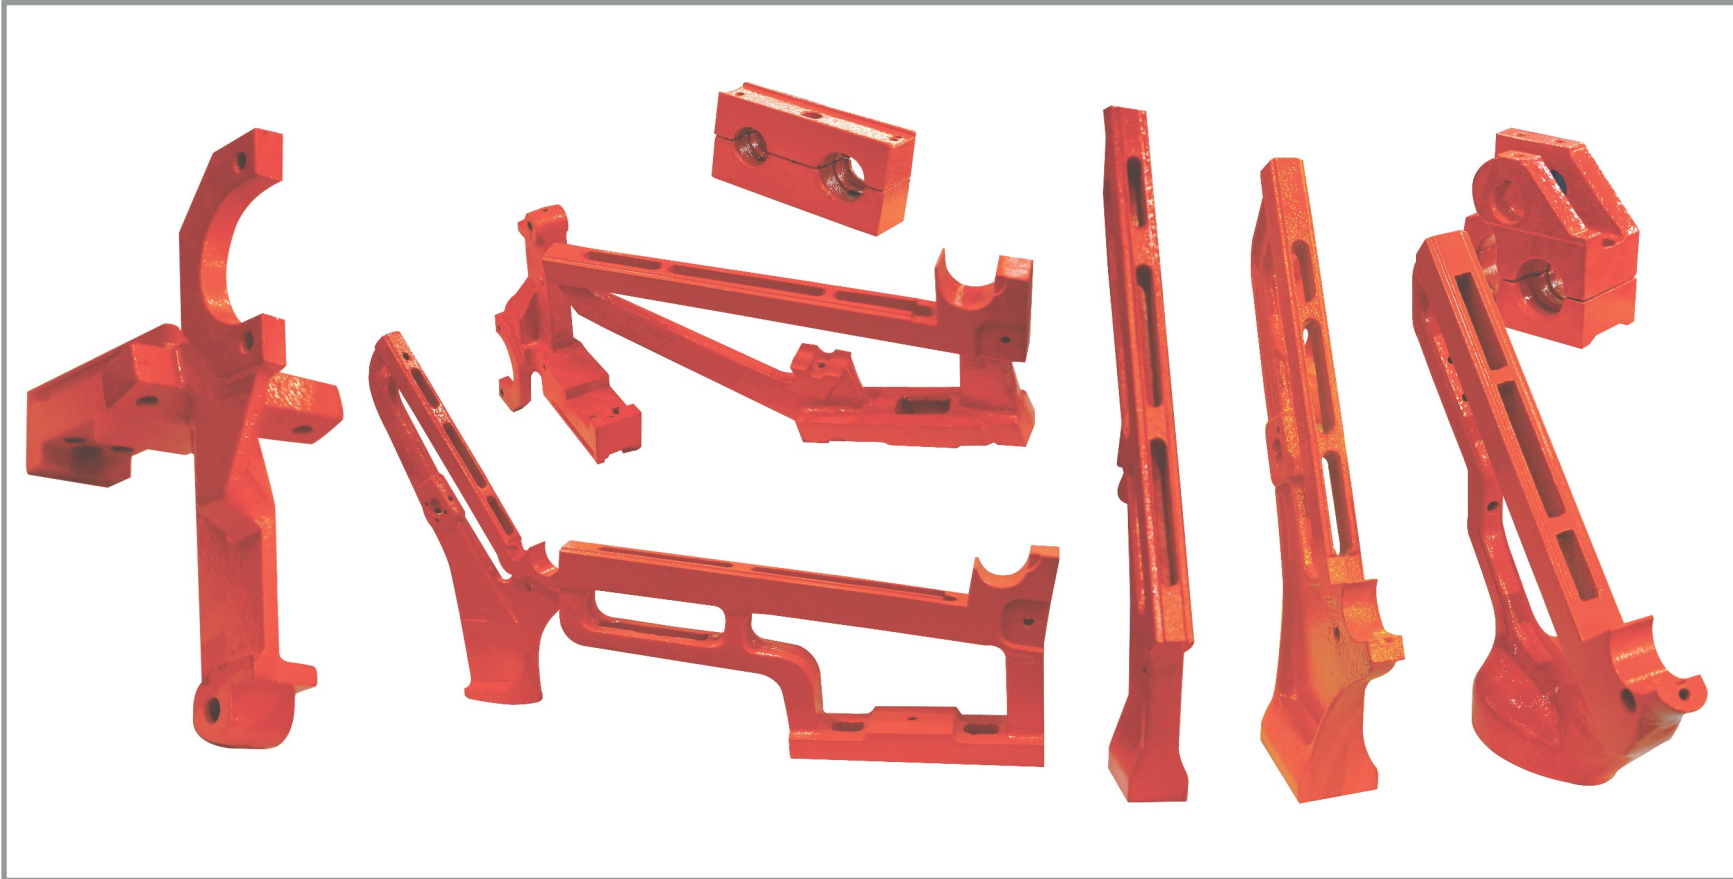

Fluted Roller for Draw Frames/Sliver Lap/Ribbon Lap & Comber Machines

The rollers are available for Draw Frames, Ribbon Lap and Sliver Lap & Comber machine detaching rollers and drawbox.

Roller Stands/Slides/Brackets for Speed Frames & Ring Frames made of machine mould cast iron

Rollers slides can be adjusted to desired settings. Roller stand bottom slot designed to move forward and backward to get the desired spinning angles.

Rollers stand available viz. 15° , 45° and 60° angle

Top Positive Clearer
